

Michael Coluccio

Kent, WA | (206) 851-3149 | mcoluccio95@gmail.com

PROFESSIONAL SUMMARY

Cybersecurity and Networking BAS student at Green River College with hands-on experience in network administration, cloud security, and security operations. Skilled in Cisco networking, AWS and Azure environments, log analysis, and incident investigation through academic labs and technical projects. Strong problem-solving abilities, attention to detail, and reliability in fast-paced operational environments.

TECHNICAL SKILLS

Security Operations: Kibana, PICES, Wireshark, log analysis, alert triage, incident investigation, packet analysis

Cloud Platforms: AWS (EC2, S3, IAM), Microsoft Azure, Entra ID, RBAC, identity and access management

Networking: Cisco routing and switching, VLANs, ACLs, DHCP, DNS, TCP/IP, network troubleshooting

Systems & Scripting: Linux (Kali, Ubuntu), Windows Server 2022, Bash, PowerShell

TECHNICAL PROJECTS

Security Operations & Threat Analysis

- Analyzed network and system logs to identify indicators of compromise and reconstruct security incidents.
- Monitored live security alerts in PICES and assessed threats based on severity and impact.
- Developed Kibana dashboards to visualize network activity, detect anomalies, and monitor unauthorized access attempts.

Cloud Identity & Infrastructure

- Deployed and secured AWS EC2 environments using IAM policies aligned with least-privilege principles.
- Configured Microsoft Entra ID authentication and implemented Role-Based Access Control (RBAC) to secure cloud resources.

Network Design & Implementation

- Built enterprise network topologies in Cisco Packet Tracer, configuring routing, switching, VLANs, and trunking.
- Implemented Access Control Lists (ACLs) to enforce traffic segmentation and restrict unauthorized communication.

CERTIFICATIONS

- CCNAv7: Introduction to Networks
- CCNAv7: Switching, Routing, and Wireless Essentials
- Currently pursuing: CompTIA Security+, CompTIA CySA+, ISC2 CISSP

PROFESSIONAL EXPERIENCE

Crew Member | Sagecliffe Resort & Spa | Jun 2021 – Mar 2023

- Performed facilities maintenance and troubleshooting to ensure reliable operation of critical systems.
- Demonstrated strong accountability, independent work ethic, and consistent performance over a multi-year tenure.

Ramp Service Agent | McGee Air Services, SeaTac, WA | May 2022 – Sep 2022

- Supported airport ground operations while adhering to strict safety and security procedures.
- Collaborated with team members in a time-sensitive environment to maintain operational efficiency and on-time departures.

EDUCATION

Bachelor of Applied Science (BAS), Cybersecurity & Networking

Green River College | Expected June 2027

High School Diploma

Mount Rainier High School | 2021
